Key stages and Timescales - House purchase

The process is usually somewhere between 8-16 weeks. The time scale is dependent on a number of factors ranging from whether it is a first-time buyer to if the property being purchased is a new build. It can be quicker or slower dependant on the parties in the chain.

The key stages in the purchase of a residential property are:

- a) We will take instructions from yourselves in an initial consultation. We will advise you of our fees and the disbursements which may be incurred. Further to this we will confirm being instructed when you have signed our letter of authority. Money will also be requested on account to cover the cost of any third-party disbursements.
- b) The seller will be asked to complete a property information form. The purpose of this information form is to build up a picture of you as a client, if a mortgage is required and what surveys you would intend on having completed. You will also need to provide us with ID so we can ensure you comply with anti-money laundering regulations.
- c) Our solicitors will conduct all the relevant searches including an environmental search, drainage and water search and a local authority search. The title will also be investigated, and any relevant enquiries will be raised (this can include discrepancies in the title or plans, inconsistencies in the documents, any right of way issues affecting the title and covenants affecting property use.)
- d) We will obtain further planning documentation if necessary and make any relevant enquiries with the seller's solicitors. Thereafter we will advise you on all the documents and information we have received.
- e) The final contract will be sent to you for a signature and we can then agree on a completion date. Contracts will be exchanged and thereafter the purchase will be completed.
- f) We will also deal with the payment stamp duty and the application for registration at Land Registry.
